1) Records Relating to Weisberg v GSA & NARS Ct 2059-70
2) "Correspondence with Mr. Weisberg"
3) "Records Relating to the Review of Warren Commission Records"

One top was note by Marion Johnson reading "Copies of records provided to Mr. Harold Weisberg in response to his FOIA ~~[illegible]~~ requests of September 25, October 19 and 21 and December 28, 1976" No letter. Slip identifying each of above groups, each separated by a rubber band. Third by far most voluminous, perhaps 4" thick.

1) is ~~[illegible]~~ obviously incomplete. It does not include request or appeal or refusals by both. Nor does it include offers of compromise or records of agreement to take pictures, records of the pictures taking or of the inspecting of the tapes. No copy of regulations then in effect or change in them during this investigation. I think it is apparent that this limited compliance was delayed for the end of depositions in Ct 75-226 & for Robinson's decision in Ct 75-1448. No search should have been required. All should have been at one point in files. There is nothing from GSA, which was involved. These pages do not even reflect the disposition of the case. The lapse of time is 4, 6 & 7 months.
